

Plate Mounted Axial Fans

Application

- Suitable for wall mounted applications.

Design

- Galvanised steel fan casing, incorporate a corrosion resistant inlet finger guard as standard.

Motor

- TEFC type in 415 V three-phase only. Motors are speed controllable using variable frequency control.
- External rotor motor in 240 V single phase & 415 V three phase, four and six pole options. Motors are speed controllable.
- Options include motors complying with Exe, Exd, Exn etc. Standards, no external terminal box supplied for these options.

Protection

- Standard motors fitted are IP55. Higher degrees of protection are available as options if required.

Impeller

- High efficiency adjustable pitch axial impeller. Impeller options include Aluminium, GRP/Nylon and Anti-static.

Technical Data & Specification

- Email info@blaubergventilation.com.au for all technical data, fan curves, noise specification or any other information required.
