

# Roof Mounted Axial Fans - Vertical Discharge

## Application

• Designed for roof installations, up to a maximum pitch of 15 degrees. They are suitable for wide range of ventilation applications including industrial and commercial requiring small to large air volumes and incorporate low loss non-return weather shutter.

#### Design

• Galvanised steel base and powder coated cowl.

#### Motor

- TEFC type in 415V three-phase only. Motors are speed controllable using variable frequency control.
- External rotor motor in 240V single phase & 415V three phase, four and six pole options. Motors are speed controllable.
- Options include motors complying with Exe, Exd, Exn etc. Standards, no external terminal box supplied for these options.

#### Protection

 Standard motors fitted are IP55. Higher degrees of protection are available as options if required.

### Impeller

o High efficiency adjustable pitch axial impeller. Impeller options include Aluminium, GRP/Nylon and Anti-static.
